

GENESIS, MOBY DICK, AVALANCHE

Wisdom Industries has 3 great scenery packages for its Avalanche Ride. Wisdom has added hundreds of lights to the scenery edge. Along with 4-1500 watt quartz lights make the Genesis and Moby Dick stand out on every midway.

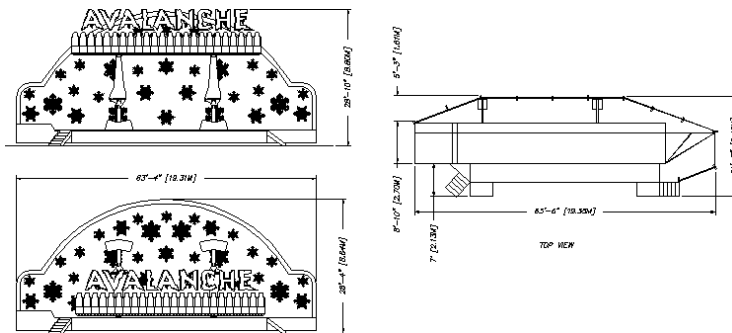

The high-profile scenery rises a full 31 feet in the air, to stand out on every midway. Each scenery package is ideal to attract the entire family. The Broadway-like stage measures 63 feet from side to side, with spectacular scenery and a lighting package that includes two high-intensity strobe lights. You'll realize maximum profits from these attractive packages and they still fold on one 53-foot trailer.

Give your park or midway an added piece of pizzazz that will turn heads and make a profit.

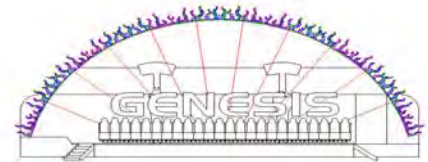

Proven year after year to be a top grossing rides on every midway or park. Teenagers & families ride time and time again.
